Compliance 360®

Managing compliance is complex. Regulations, laws and requirements are always evolving and driving change in an organization.

Compliance 360 helps you control the costs associated with your compliance programs, while significantly reducing the complexities of monitoring and managing government regulations. Compliance 360's hosted, on-demand compliance solutions assist companies in regulated industries with automating and managing corporate compliance programs through a single, enterprise-wide application.

Compliance 360 Advantage	Compliance 360	Competitors
Regulatory Intelligence – <i>Consistently stay aware of evolving laws and regulations pertinent to your organization through automated email alerts.</i>	Compliance 360 is the only Governance, Risk and Compliance (GRC) provider that offers "Regulatory Intelligence." Integrated content from LexisNexis® services supplies a consistent feed of regulatory information into the application allowing you to be agile and proactive. No competing product can offer the robust and comprehensive set of legal, news and business, and public records content accommodated by the alliance with LexisNexis, complementing Compliance 360's core content and capabilities.	<u>No other</u> competitive products include links to multiple sets of regulatory, legal and audit items.
One Comprehensive Solution – <i>Optimize enterprise-wide compliance activities using a single solution across all divisions, locations, or business units.</i>	Unlike point solutions that manage single elements of compliance such as Sarbanes-Oxley or IT security, Compliance 360 provides a holistic solution that effectively manages all compliance activities across the entire enterprise . The Compliance 360 product suite includes policy and procedure management, incident management, document and contract management, surveys, compliance & legal forums, IT governance, Sarbanes-Oxley compliance, enterprise risk management, and for insurance and healthcare organizations, an integrated Compliance 360 and LexisNexis insurance compliance workbench.	<u>No other</u> competitors provide a unified solution that incorporates these major components.
Evidence Room – <i>Provide a quick assessment view of proof of compliance for external and internal auditors.</i>	Centrally track all regulations that impact your company, then link and store all documentation supporting compliance in an electronic evidence room to show proof of compliance enterprise-wide .	<u>No other</u> competitive products provide a centralized view linking all evidence of compliance to the appropriate regulations.

Compliance 360 helps you measure and understand your corporate risks, apply best practices to reduce vulnerabilities, track all regulations that impact your company and enable your employees to react quickly to changes. You'll be able to increase internal resource productivity, enhance compliance collaboration and efficiency while enforcing accountability throughout the organization.
